

# **Detecting rosacea skin disease severity level from selfie images with help of Transfered Learning Regression**

**R M Dilan Wickramarathna**

(Reg. No.: MS19812168)

**M.Sc. in IT**

**Specialized in Enterprise Applications Development**

Supervisor : **Dr. Jeewanee Bamunusinghe**

May 2021

**Department of Information Technology  
Faculty of Graduate Studies and Research  
Sri Lanka Institute of Information Technology**

## Declaration

I hereby declare that this dissertation is solely composed by me and to the best of my knowledge it does not contain any materials previously published or written by another person, or material that have been accepted for the award of any academic qualification of a university or institute of higher learning, except where due acknowledgement is made in the text.

  
.....  
Signature of the candidate

.....21/08/2021.....  
Date

The above candidate has carried out research for the M.Sc. thesis under my supervision.

Name of Supervisor : Dr. Jeewanee Bamunusinghe

Signature : .....  
.....

Date : 06/09/2021.....

# Table of Contents

Table of Contents.....	2
List of Figures .....	4
List of Tables .....	5
Abstract.....	6
Chapter 1 Introduction .....	7
1.1 Why healthcare mobile applications are important? .....	7
1.2 Motivation of the thesis.....	8
1.3 Objectives of the thesis.....	9
1.4 Research Questions .....	10
1.5 Outline of the thesis.....	10
1.6 Summary .....	10
Chapter 2 A Comprehensive Review of Tools and Techniques to Detect Skin Diseases .....	11
2.1 Introduction .....	11
2.2 Rosacea .....	12
2.3 Current Tools and Techniques to Detect Skin Diseases.....	12
2.3.1 Data Mining.....	13
2.3.2 Knowledge Discovery in Database (KDD).....	13
2.3.3 Image Mining .....	14
2.4 Feature Extraction technique that used in skin disease analysis.....	15
2.5 Use of AlexNet CNN Model for skin disease classification .....	17
2.5.1 Preprocessing phase .....	18
2.5.2 Feature Extraction Phase .....	19
2.5.3 Classification Phase.....	19
2.6 Machine Learning.....	20
2.7 Deep Learning .....	22
2.8 Current studies in facial disease identification .....	24
2.9 Summary .....	26
Chapter 3 Methodology.....	27
3.1 Introduction .....	27
3.2 System Architecture.....	27
3.3 Research Design.....	28
3.4 Data Set.....	30
3.5 Measurement.....	30
3.5.1 Defining the Severity levels of Rosacea .....	30

3.6 Extraction of skin patches from selfie image.....	31
3.7 Rolling patches.....	31
3.8 Development of CNN model.....	33
3.8.1 Challenges of converting classification to regression:.....	33
3.8.2 Transfer Learning.....	33
3.9 Feasibility.....	34
3.9.1 Financial Feasibility.....	34
3.9.2 Technical Feasibility.....	34
3.9.3 Social, Environmental and Legal Feasibility.....	35
3.10 Summary.....	36
Chapter 4 Findings and Discussion.....	37
4.1 Distribution of Training and Testing Images.....	37
4.2 Conversion of classification to regression issues.....	38
4.2.1 CNN-based regression model's performance.....	38
4.3 Summary.....	40
Chapter 5 Conclusion and Future works.....	41
References.....	45
Appendix.....	48
Appendix 1: Application.....	48
Appendix 2: Implementation.....	49
Appendix 3: Implementation - Step 1 Remove Data Noise and data cleansing.....	50
Appendix 4: Implementation - Step 2 Data Augmentation.....	55
Appendix 5: Implementation - Step 3 Training Pipeline with transfer learning.....	58
Appendix 6: Implementation - Step 4 Scoring Pipeline.....	61
Appendix 7: Sample Output of processed images.....	63

# List of Figures

Figure 1: Rosacea (Brind'Amour, 2016) .....	12
Figure 2: Knowledge Data Mining [20] .....	14
Figure 3: Process of Image Mining [22] .....	15
Figure 4: Content Based Image Retrieval System Architecture [22].....	17
Figure 5: The block diagram of the proposed system [28] .....	17
Figure 6: Original Image (260x325 pixel) .....	18
Figure 7: Resized image (227x227 pixel).....	18
Figure 8: AlexNet Block Diagram [30] .....	19
Figure 9 High Level System diagram .....	27
Figure 10: Facial Skin Patches [46].....	32
Figure 11: Skin Patch Rolling from right to left [17].....	32
Figure 12: Distribution of images in categories of rosacea severity in selected dataset [17] .....	37
Figure 13: Real vs. Predicted Severity .....	39

# List of Tables

Table 1 Confusion Matrix pertaining to levels of discrete severity ..... 38
